

Letter from Glenn H. Curtiss to Alexander Graham Bell, October 27, 1909

Curtiss MOTORCYCLES Hammondsport, N. Y., Oct. 27, 1909. Dr. Alexander Graham Bell, Washington, D. C. Dear Mr. Bell:-

I have your letter of October 2nd. Have been away and did not get it until my return a few days ago.

I also learned of the distressing automobile accident in Washington, which caused the death of Mrs. Hubbard. Although I never met her, I have heard so much from you and Mrs. Bell that I feel as though I knew her and you and Mrs. Bell have my deepest sympathy I addressed a message to Mrs. Bell in Washington.

In regard to the patent matters I expect to meet Mr. Cameron in New York on Friday. After we have gone over the matter I will advise you in full. I am not sure whether the Association's interests are at stake or not. Even if they are not we may want Mr. Cameron to help us. I spent two evenings in Chicago with Dr. Chanute, and from what he says the Wrights have little prospect of winning.

With regards to all, I am, Yours very truly, GHCurtiss GHC/7.
